Family Owned and Operated...

BW Video Productions is a family owned business that understands how important your wedding day is to you. Having been recently married ourselves, we also understand that planning a wedding can be hectic and stressful. We are there for you on your wedding day—you are priority number one. We pride ourselves on our unobtrusive, easy-going style and attention to detail.

Why Choose Professional Video?

You have only one chance to be sure your wedding day is professionally captured...just one chance to be sure all of the emotions, the love and laughter are preserved for you to share again and again.

As professional videographers we are dedicated to capturing the planned events, as well as the spontaneous moments that are unique to every wedding. We know how to document your day, we anticipate important moments before they happen and we capture the emotion of your day in a discreet and unobtrusive manner. On your special day, only the bride and groom should be sharing the spotlight.

Style...

BW will customize your wedding DVD to reflect your individual taste and personality. While most couples rely on our creative expertise, we are always open to your input and music selections. If you can think of it, we can do it—classic, documentary, cinematic, MTV styles—anything is possible.

Preparation and Planning...

We always take the extra steps necessary to film your wedding properly. We always pre-plan camera and microphone placement and coordinate our efforts with your still photographer, coordinator and officiant.
